

We Make Life Easier for You  
Solar-Log WEB Enerest™ - Enhanced Solar PV Monitoring

# One Team. One Portal. One Solution.

Our Strength – Your Success

---

Global success comes from dedication, focus and teamwork. As a team, our focus has always been on helping our customers by creating new and better ways to monitor solar PV plants. Our business is to make monitoring easier and faster, and our superior software platform is evidence of how seriously we take our business.

---

A host of benefits on your side.  
Let the IT work for you instead of being a burden.

---

Take a closer look at what Solar-Log WEB Enerest™ can do for you...

Solar-Log WEB Enerest™ offers the ideal monitoring solution for all customer and market segments (residential, commercial and industrial). The modular design allows customization to meet customer's specific needs, by categorizing a wide range of PV plants into three modules: M, L and XL. This categorization enables you to provide your customers with better service and saves you both time and money.

## Features

## Solar-Log WEB Enerest™ Other Systems

Photovoltaic plants in comparison	●	●
Yield reports	●	●
Module Field Comparison	●	●
Ticket system for error handling	●	-

## Solar-Log WEB Enerest™ - Packaged solution for all your solar monitoring needs.

### Delivering customized solutions in one place

- The Solar-Log™ Dashboard with a dynamic display of all of top level plant data from your Solar-Log WEB Enerest™ portal.
- New user-friendly app for smartphones and tablets includes modern design, countless new and improved functions, and concise presentation.
- For the technical implementation of this complete solution, you only need a Solar-Log™ Gateway or Solar-Log™ Hardware. Easy and quick installation for new and existing plants.

“The simple Solar-Log™ monitoring interface, which allows sophisticated preventative maintenance, is a user friendly platform and helps save us a lot of time.”

Samay Mangalagiri, Director - SM Renergy (P) Ltd

“Solar-Log™ brought us innovative possibilities in relation to zero export and hybrid systems.”

Mr. Nantha Kumar (Solon India Pvt. Ltd.)
